

Abrasive Wheel Cut-Off Machine

This cut-off machine is engineered for precise and efficient cutting of metal and other materials. It features a powerful motor, abrasive cutting wheel, secure workpiece clamp, and adjustable cutting angle.

Overview

High-Performance Cutting Solution

This abrasive wheel cut-off machine is engineered for precision and efficiency in metal fabrication and construction environments. It features a robust, durable construction designed to ensure stability during demanding cutting tasks. Equipped with a powerful motor and an integrated workpiece clamp, it delivers fast, clean cuts while maintaining operator safety through essential guards and deflectors.

Technical Specifications

Cutting Capabilities

- Precise metal cutting
- Adjustable cutting angle
- Abrasive wheel operation

Construction

Robust Design • High Stability

Safety & Design

Safety Features

Wheel Guard, Spark Deflector, Workpiece Clamp

Applications

Primary Applications

- Metal Fabrication
- Construction
- General Cutting Tasks
