

Abrasive Wheel Cut-Off Saw

This cut-off saw is designed for precise and efficient metal cutting. It features a robust motor, adjustable fence, and quick-release vise for secure workpiece clamping.

Overview

High-Performance Metal Cutting Solution

This abrasive wheel cut-off saw is engineered for precise and efficient metal cutting across various materials including steel and aluminum. It features a robust motor and a sturdy base that ensures stability during heavy-duty operations while remaining portable for job site use. With integrated safety features like a spark deflector and a quick-release vise, it provides a reliable and clean, burr-free cutting experience for professional users.

Performance

Performance Highlights

1 Abrasive

Cutting Type

Technical Features

Workpiece Clamping	Quick-release vise for secure and fast setup
Fence Adjustment	Yes
Compatible Materials	Steel, Aluminum, Non-ferrous Metals

Safety & Design

Safety Equipment

- Integrated spark deflector
- Durable abrasive wheel guard
- Robust stable base

Result Quality

Burr-Free • Clean Cut • High Precision

Portability	Compact design suitable for various job site applications
