

AC 100V 4W Shaded Pole Motor

This AC shaded pole motor is compact and designed for various applications. It operates at AC 100V with a power consumption of 4W, making it ideal for small appliances and equipment.

Overview

Compact Shaded Pole Motor Solution

This compact AC shaded pole motor is engineered for reliable, low-power operation in various professional and small appliance applications. Operating at 100V with a 4W power rating, it offers consistent performance and robust construction. It is an ideal choice for equipment requiring precise, efficient, and continuous motion.

Technical Specifications

Rated Voltage	100 V
Power Consumption	4 W
Model Identifier	YJF617B-552-D42-A
Country of Origin	China
