

AC-14 High Holding Power Anchor (60-28875kg)

This AC-14 high holding power anchor is designed for superior performance. Its robust construction ensures rapid penetration and secure holding in demanding marine applications.

Overview

High Holding Power Performance

The AC-14 High Holding Power (HHP) anchor is engineered for exceptional performance across diverse seabed conditions. Featuring optimized fluke geometry and robust casting steel construction, it ensures rapid penetration and reliable security for vessels. Designed for demanding marine environments, this anchor provides the stability required for ships, barges, and offshore platforms.

Technical Specifications

Nominal Weight Range

60 kg

Min Weight

28875 kg

Max Weight

Anchor Type	HHP Anchor
Material	Casting Steel

Certifications

Classification Societies	CCS, ABS, LR, GL, DNV, NK, BV, KR, RINA, RS
--------------------------	---

Product Variants

Available HHP Anchor Types

- AC-14 HHP Anchor
- Type AC-14 HHP Self Balanced Anchor
- Danforth Type HHP Anchor
- Delta Type HHP Anchor
- Pool-TW HHP Anchor
- Stevnpris MK5 HHP Anchor
- Pool-N HHP Anchor
- GB115779-89 Light Weight Anchor
- DE-Hone Anchor
- Matrosov HHP Anchor
