

AC 220V Indicator Light with Buzzer

This AD56-16 series indicator light provides clear visual and audible alerts. Its robust construction ensures reliability in demanding environments, making it ideal for alarm systems and control panels.

Overview

Compact Signaling Solution

The AD56-16 series indicator light with integrated buzzer is a compact and versatile signaling device designed for industrial applications. Engineered for 220V AC operation, it provides simultaneous visual and audible alerts to ensure clear communication in control panels and alarm systems. Its robust construction ensures long-term reliability in demanding operational environments.

Technical Specifications

Rated Voltage	220 V
Voltage Type	AC
Mounting Hole Diameter	16 mm
Series	AD56-16

Features

Ideal For

- Industrial Control Panels
- Alarm Systems
- Safety Signaling

Key Functions

Visual Indicator, Audible Alarm, Buzzer Integrated
