Product Overview

High-Performance AC Compressor Clutch

This AC compressor clutch assembly is specifically engineered for TRSE09 compressors used in 2007-2010 Honda CR-V and Acura RDX vehicles. The unit features a 12V PV7 pulley configuration, designed to ensure efficient power transfer and reliable air conditioning system operation. It provides seamless engagement and disengagement of the compressor, making it a critical component for maintaining optimal climate control performance.

Technical Specifications

Pulley Type	PV7
Voltage	12 V
Compatible Compressor Models	TRSE09

Compatibility

Vehicle Applications

- 2007-2010 Honda CR-V
- 2007-2010 Acura RDX

Included Components

Kit Contents

- Clutch Hub
- Pulley
- Coil
- Bearing
