

# AC Contactor

This AC contactor is designed for switching electrical circuits. It provides reliable operation in various industrial and commercial applications.

## ADDITIONAL IMAGES

## Overview

### Professional AC Contactor

This AC contactor is engineered for reliable remote circuit switching and motor control in industrial environments. Designed for AC 50Hz or 60Hz systems with voltages up to 690V, it ensures stable performance for frequent starting operations. When paired with an appropriate thermal relay, it provides essential overload protection for connected electrical circuits.

## Electrical Ratings

### Rated Working Current

**95 A**

Rated Current (AC-3)

### Voltage Specifications

- Rated Voltage up to 690V
- Coil Voltage: 220V (50Hz)
- Coil Voltage: 220V-240V (60Hz)

## Standards & Compliance

### Compliance Standards

CB/T14048.4, IEC 60947-4-1

## Technical Details

### Terminal Configuration

Terminal Type	Label
Power Input	1/L1, 3/L2, 5/L3
Power Output	2/T1, 4/T2, 6/T3
Auxiliary Contact	13 NO, 14 NO
Coil Terminals	A1, A2

**Pole Configuration** 3 poles
