Overview

LNC-1 Home Contactor

The LNC-1 AC contactor is a reliable solution designed for home automation systems, residential, and light commercial applications. It is engineered for AC 50/60Hz circuits with operating voltages up to 400V, making it suitable for controlling household appliances, lighting, and heating loads. This compact device supports long-distance circuit breaking and control, ensuring efficient management of low inductance and electromotor loads.

Electrical Ratings

Rated Insulation Voltage (Ui)	500 V
Rated Control Voltage (Uc)	220/230/240V
Rated Current (AC-7a)	25 A
Rated Current (AC-7b)	8.5 A
Rated Power (AC-7a)	5.4 kW
Rated Power (AC-7b)	1.5 kW

Standards & Compliance
