Product Overview

Versatile AC Electric Motor Solution

This compact AC electric motor is designed for reliable performance in small appliances, fans, and consumer electronic systems. It features a robust cylindrical metal body and comes complete with essential mounting hardware and interchangeable fan blades for flexible integration. Engineered for standard 110V power supplies, this component is ready for immediate installation into your existing systems.

Electrical Specifications

Rated Current

0.45 A

Model SM670

0.38 A

Model SM999

Voltage

110 V

Frequency

60 Hz

Physical Characteristics

Included Accessories

- Mounting hardware (screws, nuts)
- Red plastic mounting pieces
- 3-blade fan attachment
- 5-blade fan attachment
- Electrical wiring

Body Type

Cylindrical metal housing

Common Applications

Small Appliances, Fan Systems, Consumer Electronics, IT Equipment
