Overview

ZVF300 Series Inverter

The ZVF300 series is a compact and reliable solution designed for precise AC motor control across a variety of industrial applications. It features an intuitive user interface with a digital display for easy programming and real-time monitoring. Engineered for efficiency, this inverter helps optimize motor performance, contributes to energy savings, and includes essential protection features to ensure long-term operational reliability.

Technical Specifications

Power Rating

0.75 kW

Power Output

Input Voltage	380V
Phase	3-Phase
Model Identifier	ZVF300 / E-300C

Features

Key Features

- Precise motor speed and torque control
- Integrated energy-saving technology
- User-friendly digital display interface
- Built-in protection and safety warnings
- Compact design for easy integration

Safety

Safety Compliance	Voltage Discharge Warning, Industrial Grade
