

AC Power Adapter with Australian Plug

This AC power adapter is designed for use with Australian/New Zealand standard three-pin outlets. It provides power to network communication devices and other compatible electronics.

Product Overview

Reliable Power Solution

This compact AC power adapter is designed specifically for use with Australian and New Zealand electrical standards. Featuring a durable three-pin plug design, it provides a stable power connection for network communication devices and various electronic equipment. Its efficient, rounded-edge form factor ensures easy integration into crowded power strips or wall outlets.
