

AC Power Pallet Truck, 2000kg Capacity

This AC power pallet truck is a versatile and efficient material handling solution suitable for various industrial applications. It features a robust AC motor, adjustable forks, precise speed control and a 2000kg load capacity.

Overview

High-Performance AC Power Pallet Truck

This AC Power Pallet Truck is a versatile and efficient material handling solution engineered for demanding industrial environments. With a robust 2000kg load capacity and a powerful AC motor, it delivers reliable performance for warehouses, distribution centers, and manufacturing facilities. Its ergonomic design prioritizes operator comfort, while precise speed control and durable construction ensure long-lasting operational efficiency.

Performance Metrics

Load Capacity

2000 kg
Load Capacity

6 km/h
Travel Speed

Turning Radius	1750 mm
----------------	---------

Technical Specifications

Fork Dimensions

- 680 x 1220 mm
- 550 x 1150 mm

Lifting Height	200 mm
----------------	--------

Minimum Fork Height	85 mm
---------------------	-------

Power and Battery

Driving Motor	AC 24V / 1500W
---------------	----------------

Lifting Motor	DC 24V / 2000W
---------------	----------------

Battery System	DC 12V x 2 / 210Ah
----------------	--------------------

Battery Charger	AC 220V / 24V 30A
-----------------	-------------------

Physical Dimensions

Overall Dimensions (LxWxH)	1850 x 720 x 1382 mm
----------------------------	----------------------

Total Weight	580 kg
