

AC1200 Dual Band Gigabit Wireless Router

This wireless router is a high-performance networking device suited for home and small office environments. It supports the 802.11ac Wi-Fi standard, with combined wireless speeds reaching up to 1200Mbps.

Overview

High-Performance Dual-Band Connectivity

The AC1200 Dual Band Gigabit Wireless Router is a robust networking solution designed to deliver reliable, high-speed internet connectivity for modern homes and small offices. By utilizing dual-band technology, it effectively minimizes interference while providing combined wireless speeds of up to 1200Mbps. With Gigabit Ethernet ports and advanced security protocols, this router ensures a fast, secure, and stable network environment for all your connected devices.

Performance

Wireless Speed

300 Mbps

2.4GHz Band

867 Mbps

5GHz Band

Chipset Solution

MT7621A+MT7602E+MT7612E

Hardware Interfaces

Ethernet Ports

Port Type	Quantity	Speed
WAN	1	1000 Mbps
LAN	4	1000 Mbps

Expansion Ports

1x USB 3.0, 1x TF Card Slot

Antenna Configuration

4 x 5dBi External Antennas

Network Standards

Wi-Fi Standards

IEEE 802.11b, IEEE 802.11g, IEEE 802.11n, IEEE 802.11ac

Wired Standards

IEEE 802.3, IEEE 802.3u

Security and Management

Security Protocols

WPA • WPA2 • WPA-PSK • WPA2-PSK

Supported Access Types

- PPPoE
- Dynamic IP
- Static IP
- PPTP
- L2TP

Advanced Features

- UPnP
- Dynamic DNS
- Static Routing
- Bandwidth Control
- Parental Control
- Guest Network Access
