

AC/DC Square Wave Arc Welding Machine

This AC/DC square wave arc welding machine is designed for diverse welding tasks. It features adjustable parameters for precise control, ensuring efficient and stable arc performance across various materials.

Overview

Professional Arc Welding Solution

The WSE-series AC/DC square-wave arc welding machine is engineered for versatile welding performance across various materials. Featuring advanced square-wave technology, it ensures high efficiency and a stable arc, providing the precision control required for demanding professional applications. This unit is built to deliver consistent results in diverse industrial welding environments.

Technical Specifications

Model Series	WSE-500
Welding Current	AC, DC
Waveform	Square Wave

Performance

Arc Stability
High Stability

Operational Efficiency
High Efficiency
