

Acrylic Mounting Accessory with Cutouts

Clear acrylic hardware accessory designed for mounting and connections. Features include a central circular cutout, smaller holes, and slotted edges for secure installation.

Product Overview

Precision-Engineered Acrylic Mounting Solution

This high-quality acrylic mounting accessory is designed for versatile use in various hardware and assembly applications. Featuring a precise central circular cutout, two additional mounting holes, and slotted edges, it ensures a secure and accurate fit for complex installations. Its clear construction provides a clean, professional aesthetic suitable for both functional and visible mounting environments.
