

Adjustable Alloy Steel Wrench

This adjustable wrench is designed for optimal torque and durability. Constructed from high-grade alloy steel, it features a corrosion-resistant finish.

Product Overview

Precision Alloy Steel Wrench

This adjustable alloy steel wrench is engineered for durability and precision in mechanical and automotive applications. Constructed from high-grade alloy steel with a corrosion-resistant finish, it offers reliable performance under torque. Its compact design and specific dimensional accuracy make it an essential tool for professional maintenance and assembly tasks.

Technical Specifications

Model Number	YT-0007
Length	119 mm
Diameter	7 mm
Primary Thickness	3.8 mm
Secondary Thickness	5.2 mm
Weight	20 g
Volume	20 in ³
