

Adjustable Architect Desk Lamp with Articulated Arm

This is an adjustable architect desk lamp, featuring a long reach, articulated arm for flexible positioning. It has a classic design with a dome-shaped shade and a sturdy base with a clamp for secure mounting.

Product Overview

Professional Architect Desk Lamp

This adjustable architect desk lamp is designed for precision tasks, offering a long-reach, articulated arm that provides exceptional flexibility for focused lighting. Featuring a classic dome-shaped shade and a robust construction, it ensures reliable performance for drafting, intricate design work, and reading. The unit includes a sturdy clamp base, allowing for secure and space-saving mounting on any workspace surface.
