Product Overview

Versatile Clamping Solution

This adjustable band clamp is engineered for securing awkward or irregular shaped workpieces during assembly or gluing. It is highly versatile, capable of clamping round, square, and polygonal objects with ease. The design ensures even pressure distribution, providing a secure and uniform hold for professional woodworking and framing projects.

Technical Specifications

Band Length	15 ft
Band Width	1 inch
Jaw Dimensions	1 inch x 1 inch
Material Features	Non-marring, Plastic Jaws, High-strength Nylon

Applications

Compatible Shapes

- Round
- Square
- Polygon
- Irregular
