

Adjustable Dual Spotlight Fixture

This lighting fixture features two adjustable spotlights for targeted illumination. The spotlights are encased in a rectangular housing with a reflective interior, allowing for independent aiming and adjustment.

Product Overview

Professional Dual Spotlight Fixture

The Adjustable Dual Spotlight Fixture provides versatile, directional lighting engineered for precision. Featuring two independently adjustable circular spotlights, this unit is perfectly suited for retail displays, architectural highlights, and professional studio or workshop task lighting. Its durable rectangular housing is designed with reflective internal surfaces to maximize light output and ensure efficient illumination.
