

Adjustable Focus 4AAA Headlamp

This headlamp provides hands-free illumination with an adjustable focus beam. Users can easily switch between a wide floodlight and a concentrated spotlight.

Product Overview

Professional Hands-Free Illumination

This adjustable focus headlamp is designed to provide reliable hands-free lighting for a variety of professional and recreational tasks. Equipped with a high-performance 3W white LED, it offers exceptional brightness and longevity with a lifespan of up to 100,000 hours. The adjustable beam capability allows users to seamlessly switch between wide-area flood lighting and precise concentrated spotlighting. Powered by 4 AAA batteries, this unit is built for durability and comfort in demanding environments.
