

Adjustable Fountain Nozzle Set

This set allows users to customize the height and spray pattern of their fountain. It includes adjustable risers and connectors for easy integration with existing plumbing systems.

Product Overview

Versatile Fountain Customization

This adjustable fountain nozzle set provides a comprehensive solution for customizing water features in ponds and gardens. Featuring durable, weather-resistant plastic construction, the kit includes telescoping risers and various connectors to easily modify fountain height and spray patterns. Designed for seamless integration with existing plumbing, this set allows for a wide range of effects, from gentle bubbling to dynamic spray displays.

Technical Specifications
