Overview

Professional Adjustable Lopping Shear

This high-performance lopping shear is designed for professional landscaping and gardening, offering exceptional durability and precision. Featuring a telescopic handle system, it allows for effortless adjustment to reach higher limbs while reducing physical strain. The carbon steel blade ensures clean cuts, promoting healthy plant growth, while the ergonomic grip provides comfort during extended use.

Technical Specifications

Blade Material	65Mn Carbon Steel
Blade Hardness	HRC 53-56
Blade Thickness	5 mm
Max Cutting Capacity	2 inches
Handle Material	Aluminum Alloy

Dimensions & Adjustability

Telescopic Range

680 mm
Minimum Length

1040 mm
Maximum Length

Adjustment Mechanism: 6-step retractable button (65mm per step)

Features

Key Features: Teflon Coated Blade, Rubberized Grip, Rust Resistant, Sap Resistant, Heavy Duty
