

Adjustable Height Electric Fan

This electric fan is designed for efficient and quiet cooling. The fan head is adjustable and mounted on a telescopic pole, allowing for variable height settings.

Product Overview

Versatile Cooling Solution

This adjustable height electric fan is designed for efficient and quiet cooling in homes or office environments. It features a modern, clean aesthetic with a telescopic pole for customizable height and a spherical fan head for optimal airflow. Equipped with smart features like 3D oscillation, multiple wind modes, and remote control operation, it provides a tailored cooling experience for any space.

Performance Specifications

Power Consumption	55 W
Wind Modes	Sleep, Natural
Speed Levels	3
