Product Overview

Industrial-Grade Cooling Performance

This adjustable height tripod cooling fan is engineered for high-volume air circulation in demanding professional environments. Featuring a robust motor with an extended service life and a sturdy metal four-blade design, it delivers consistent, powerful airflow. Its stable tripod structure ensures reliability in workshops, warehouses, and large industrial halls while maintaining ease of maintenance.

Performance

Speed Levels	3
Blade Configuration	4

Construction

Material	Metal Construction, Reinforced Guard
Base Design	Stable Tripod

Application

Suitable Environments

- Mineral Factories
- Workshops
- Warehouses
- Large Industrial Halls

Operational Features

Key Features

Low Noise • Low Temperature Rise • Large Air Volume • Adjustable Height
