Product Overview

Industrial-Grade Illumination

This industrial worksite light is engineered for demanding environments, combining high-intensity LED performance with rugged, impact-resistant construction. Designed for versatility, it features an adjustable stand that mounts easily onto tripods, ensuring optimal light direction for construction sites and workshops. With built-in Bluetooth connectivity for wireless control and integrated power bank functionality, this unit serves as both a powerful lighting solution and a convenient tool for the modern job site.

Technical Specifications

IP Rating

IP54

Design Features

- Swivel stand
- Tripod mountable
- Patent design
- Impact-resistant casing

Power & Connectivity

Rechargeable, Power Bank Function, Bluetooth Connectivity

Application Environment

Outdoor Use, Construction Sites, Workshops
