

# Adjustable Long Arm Tablet and Phone Holder

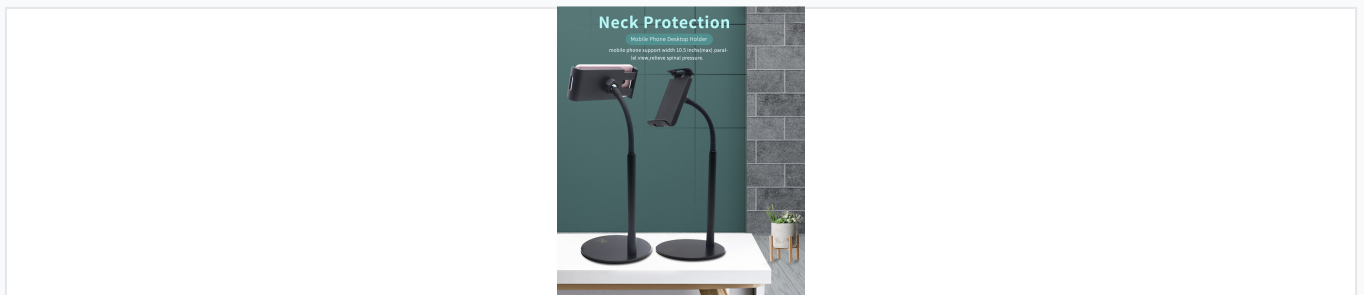

This adjustable long arm stand provides a stable and flexible platform for tablets and phones. It features a 360-degree rotation and a soft tube for easy angle adjustment.

## ADDITIONAL IMAGES

## Product Overview

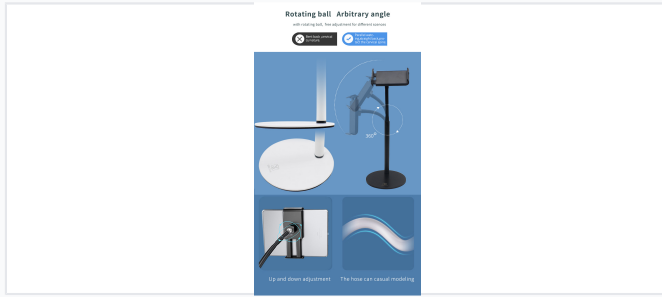

Designed to relieve spinal pressure by providing a parallel viewing angle.

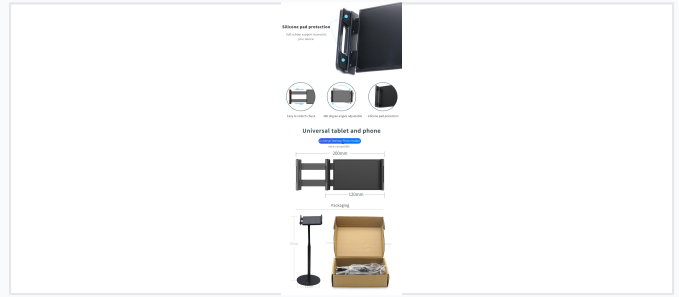

### Ergonomic Hands-Free Viewing

This adjustable long arm stand provides a convenient hands-free solution for tablets and smartphones, making it ideal for use in bed or at a desk. Designed to promote better posture, the stand allows for parallel viewing angles that help relieve spinal pressure and neck strain. Its flexible, 360-degree rotating design ensures you can easily position your device for optimal comfort during reading, video calls, or media consumption.

## Key Features

360-degree rotation and adjustable ball joint for flexible positioning.

Soft silicone pads protect your device from scratches and provide a secure grip.

### Key Features

- 360-degree rotation for versatile viewing angles
- Flexible gooseneck arm for easy positioning
- Sturdy base design for enhanced stability
- Silicone pad protection to prevent device scratches
- Compatible with both smartphones and tablets
