Product Overview

Precision Magnification and Illumination

This adjustable magnifying lamp is engineered for precision tasks, combining high-quality SMD LED lighting with a durable magnifying lens. Its flexible gooseneck design allows for optimal positioning, making it an essential tool for detailed work such as electronics repair, needlework, jewelry appraisal, and beauty services. The secure clamp base ensures stable mounting on desks or workbenches, providing a reliable, hands-free solution for professional and hobbyist applications.

Technical Specifications

Magnification Options

3 Diopter • 5 Diopter

Power Consumption

6 W

Power

Lens Diameter	100 mm
Lighting Technology	SMD LED
Voltage Range	100-240V

Usage & Features

Key Features

- Flexible gooseneck for adjustable angles
- Strong clamp base for secure mounting
- Wearproof glass lens
- Adapter included

Primary Applications	Reading, Needlework, Jewelry Appraisal, Electronics Repair, Beauty/Nail Care
