

# Adjustable Spanner Wrench

This adjustable spanner wrench is designed for gripping and turning fasteners of various sizes. Its adjustable jaw allows for use with different bolt and nut dimensions, making it suitable for various applications.

## Product Overview

### Versatile Adjustable Wrench

The WB-41B adjustable wrench is a professional-grade hand tool engineered for gripping and turning fasteners of varying sizes. Featuring a robust forged steel construction, it provides the strength and longevity required for demanding mechanical, plumbing, and general repair tasks. The ergonomic handle design ensures comfort during extended use, while the precision adjustable jaw mechanism delivers a secure grip to minimize slippage.

## Technical Specifications

Model Number	WB-41B
Material	Forged Steel
Applications	Mechanical, Plumbing, General Repair

## Features
