

Adjustable Steel Pet Barrier for Car Cargo Area

This pet barrier is designed for use in the cargo area of a vehicle. It is constructed from steel and features adjustable width and height.

Overview

Universal Safety Solution for Pet Travel

This adjustable steel pet barrier is engineered to keep pets safely contained within the vehicle's cargo area, preventing them from entering the driver or passenger compartments. Its heavy-duty steel construction with a sleek black finish ensures long-lasting durability and professional aesthetics. Designed for versatility, the barrier features tool-free installation and removal, making it an ideal solution for various vehicle models and frequent use.
