Product Overview

Versatile Telescopic Work Platform

This professional-grade telescopic work platform offers exceptional flexibility for maintenance and construction tasks. Engineered with high-strength anodized aluminum tubes and reinforced fiberglass components, it ensures both durability and ease of cleaning. Its compact, sliding design allows for effortless transport and storage, making it an ideal solution for contractors and maintenance teams who require a reliable, height-adjustable elevated surface.

Physical Dimensions

Height Adjustment	50 cm
Length Adjustment	100 - 175 cm
Platform Width	30 cm

Performance Metrics

Maximum Load Capacity

150 kg

Weight Capacity

Product Weight	15.5 kg
