

Adjustable Temperature 60W Soldering Iron Kit

This electric soldering iron kit is designed for various soldering jobs. It features a 60W soldering iron with adjustable temperature control, allowing for precise heat application.

Overview

Professional Soldering Solution

This adjustable soldering iron kit is designed for versatility and precision in electronics repair and DIY projects. Featuring a robust mica heating core, it offers multiple power settings and precise temperature control to prevent component damage. The wide voltage compatibility ensures reliable performance across various international power standards.

Performance Metrics

Key Performance Metrics

60 W Max Power	480 Max Temp	2 ± Temp Accuracy
--------------------------	------------------------	-----------------------------

Technical Specifications

Temperature Range

- 380
- 420
- 480

Rated Power Options	30W, 40W, 60W
---------------------	---------------

Voltage Range	100-240V
---------------	----------

Safety & Construction

Heating Component	Mica heating core
-------------------	-------------------

Insulation Resistance	e10M©
-----------------------	-------

Max Insulation Voltage	3000 V
------------------------	--------

Identification

Model Number	SY-008
