

Adjustable Tilting TV Wall Mount Bracket

This heavy-duty TV bracket is constructed from robust steel for secure mounting of flat-screen televisions. It features a tilting mechanism for optimal viewing angles and universal VESA compatibility.

Product Overview

Professional Grade Tilting Mount

This heavy-duty LCD-TV bracket is constructed from robust steel, engineered for secure and adjustable mounting of flat-screen televisions. It features a versatile tilting mechanism that allows for optimal viewing angles in various environments, including home theaters, offices, and commercial spaces. With a durable powder-coated finish and support for universal VESA mounting standards, this bracket ensures long-lasting performance and easy installation.
