

Adjustable Two-Spotlight Fixture

This lighting fixture features two adjustable spotlights for focused illumination. It is suspended from the ceiling by cables and has a metallic bar.

Product Overview

Professional Lighting Solution

This adjustable two-spotlight fixture is designed for versatile lighting applications in commercial and professional environments. Featuring a sleek, metallic horizontal bar and two fully adjustable cylindrical spotlights, it offers precise illumination control. The unit is suspended via thin, durable cables, providing a modern and unobtrusive aesthetic suitable for various interior settings.
