

Adjustable Water Pump Pliers

These water pump pliers are designed for versatile gripping and tightening applications. They feature adjustable jaws for different sizes and ergonomic handles for comfortable use.

Overview

Versatile Adjustable Water Pump Pliers

These professional-grade adjustable water pump pliers are engineered for a wide range of gripping and tightening tasks. Featuring a durable forged construction, they are designed to withstand rigorous use in plumbing, automotive, and general maintenance environments. The adjustable jaw mechanism allows for precise handling of various fastener sizes, while the ergonomic plastic handles ensure comfort during extended operation.
