

Adjustable Water Pump Pliers

These water pump pliers feature adjustable jaws for gripping and turning pipes and nuts. The slip-joint design allows for variable jaw opening, and the ergonomic handles ensure a comfortable grip.

Product Overview

Professional Adjustable Water Pump Pliers

These adjustable water pump pliers are designed for high-performance gripping and turning of pipes, nuts, and irregular objects. Featuring a versatile slip-joint design, they offer variable jaw opening capacities to accommodate diverse task requirements. The ergonomically shaped handles ensure a comfortable grip, significantly reducing hand fatigue during prolonged industrial or maintenance work.
