

Adult Electric Mobility Tricycle with EEC

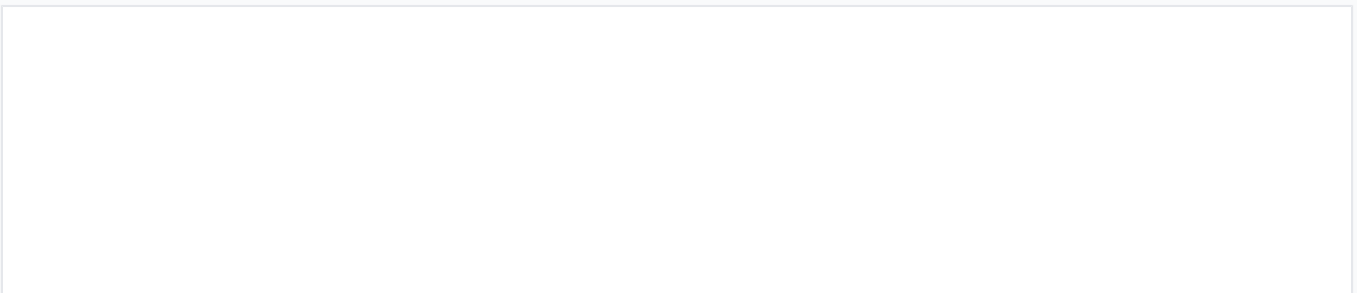

This adult electric tricycle provides enhanced stability and ease of use. It features EEC certification, ensuring compliance with European safety standards.

ADDITIONAL IMAGES

Overview

Stable 3-wheel design engineered for adult mobility and safety.

Reliable Mobility Solution

The T408-2 is a stable three-wheel electric tricycle specifically engineered for adults needing mobility assistance. It features a robust 500W brushless motor and is fully EEC certified to meet international safety and environmental standards. With a focus on comfort and ease-of-use, it includes ergonomic features like an adjustable armrest and a spacious storage bucket for daily convenience.

Performance Metrics

Key Performance Metrics

500 W

Motor Power

22 km/h

Max Speed

30 km

Range

15 deg

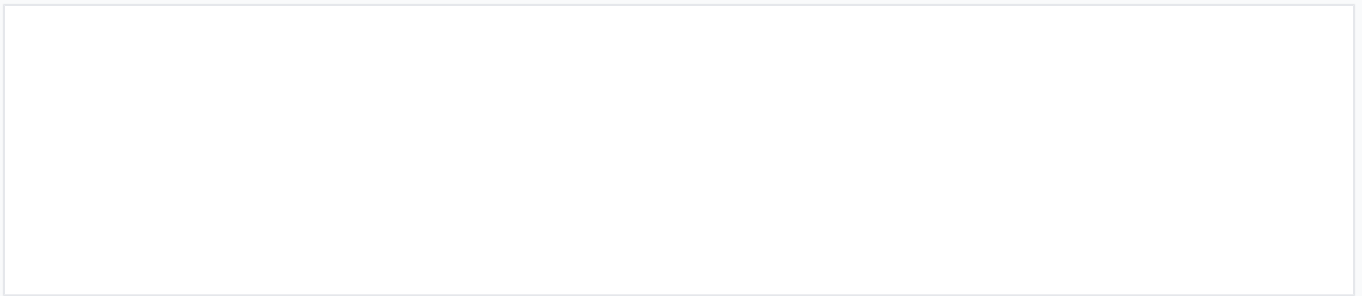

Max Climbing Angle

Dimensions and Load

Physical Specifications

Metric	Value
Overall Size	1500 x 690 x 1110 mm
Net Weight (without battery)	74 kg
Weight Capacity	75 kg
Seat Height	650 mm
Ground Clearance	110 mm

Technical Details

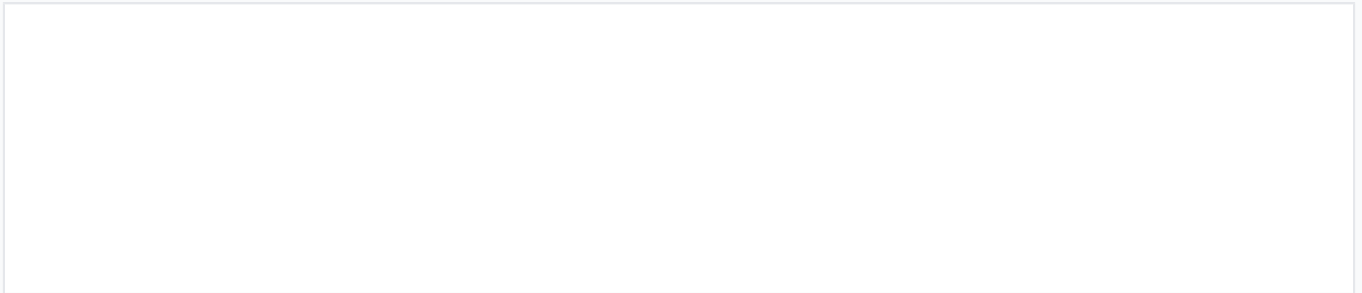

Includes a spacious PP seat bucket and a moisture-protected charging interface.

Battery System

- Capacity: 20Ah
- Voltage: 60V/48V
- Charging time: 4-8 hours

Safety and Features

Designed for accessibility with liftable armrests and convenient front storage.

Compliance

EEC Certified, CE Compliant, ISO9001, CCC Certified

Braking Distance

3meters (Front and rear hub brakes)
