Product Overview

Industrial Conveyor Solutions

This high-performance conveyor chain is engineered for demanding industrial and agricultural environments. It adheres to multiple international standards, including DIN, ISO, SMS, and BS, ensuring compatibility across diverse machinery setups. Designed for durability and efficient power transmission, the chain supports heavy loads and offers reliable operation with minimal maintenance requirements.

Technical Standards

Customization

- Custom pitch dimensions
- Special design configurations
- Variable industrial application setups

Supported Standards

DIN 8165, DIN 8167, ISO 1977, SMS 1698, BS 4116/4

Application Suitability

Suitable Applications

Agricultural Machinery • Industrial Conveying • Heavy-Duty Transport
