

Agricultural Diaphragm Pump for Sprayers

Diaphragm pump designed for agricultural spraying applications. It features robust construction and multiple inlets/outlets.

Product Overview

High-Pressure Agricultural Diaphragm Pump

This high-pressure diaphragm pump is engineered specifically for demanding agricultural spraying applications, such as orchard maintenance. It features a robust construction with a silver-colored pump body and black diaphragm housing, ensuring durability in harsh field environments. With versatile plumbing configurations and multiple inlet/outlet options, this unit is designed to handle various agricultural chemicals and liquids efficiently.

Performance Metrics

Operating Pressure

20 bar

Min Pressure

40 bar

Max Pressure

Available Flow Rates

- 110 L/min
- 130 L/min
- 150 L/min

Construction & Design

Key Features

High Pressure, Orchard Sprayer Compatible, Multiple Inlets/Outlets, Fluid Level Reservoir

Installation

Includes black mounting bracket for secure installation
