

Agricultural Drainage Water Pump

This water pump is designed for agricultural drainage and irrigation applications. It features a robust engine for reliable performance and a durable pump housing for longevity.

Product Overview

High-Efficiency Agricultural Water Pump

This robust water pump is specifically engineered for demanding agricultural environments, supporting both efficient drainage and irrigation tasks. Featuring a high-performance engine and a reinforced housing, it ensures long-term operational reliability in the field. Designed for professionals, this unit provides a versatile solution for large-scale water management needs.

Technical Specifications

Durability Features

- Robust engine construction
- High-durability pump housing

Model Identifier	FGP20C
Primary Applications	Agricultural Drainage, Irrigation
