

Agricultural Drainage Water Pump

This water pump is designed for drainage and irrigation applications in agriculture. It efficiently moves water for various purposes, such as irrigation, flood control, and general water transfer.

Product Overview

High-Efficiency Drainage Solution

This industrial-grade water pump is engineered specifically for demanding agricultural environments. It provides reliable performance for irrigation, large-scale water transfer, and flood control applications. Built with a robust construction, it ensures longevity and consistent flow rates under varied operating conditions.

Key Features

Primary Applications

Agricultural Irrigation, Flood Control, Water Transfer

Technical Characteristics

Construction Quality

Robust Design • Heavy-Duty • Field-Tested
