

Agricultural Gearbox for Farm Machinery

This heavy-duty gearbox is designed for agricultural applications. It features precision-machined gears within a robust cast iron housing for efficient power transmission and versatile equipment integration.

Product Overview

Heavy-Duty Agricultural Gearbox

This high-performance agricultural gearbox is engineered for robust power transmission in demanding farming environments. Featuring a durable cast iron housing and precision-machined gears, it ensures efficient operation and an extended service lifespan. It is designed to provide reliable gear reduction and power take-off capabilities for a wide range of farm machinery, including tractors and harvesters.

Technical Construction

Housing Material	Cast Iron
Gear Engineering	Precision-machined

Compatibility & Use

Design Features

- Robust cast iron housing
- Precision-machined gears
- Multiple output shafts for versatile integration

Applications	Tractors, Harvesters, Farm Machinery, Power Take-Off, Gear Reduction
