

Agricultural Irrigation Water Pump

This cast iron water pump is designed for agricultural drainage and irrigation machinery. It features a robust construction for reliable performance in demanding environments.

Product Overview

Industrial-Grade Agricultural Water Pump

This robust cast iron water pump is specifically engineered for demanding agricultural irrigation and drainage environments. Designed for long-term reliability, it features high-durability materials capable of withstanding the rigors of heavy-duty use. The unit is optimized for seamless integration, offering secure mounting points and a flanged outlet for fast connection to existing irrigation infrastructure.

Technical Specifications

Design Features

- Robust cast iron construction
- Multiple mounting points
- Flanged outlet for standardized connection

Primary Material	Cast Iron
Suitable Applications	Agricultural Irrigation, Drainage Machinery, Agricultural Water Management
