

Agricultural Irrigation Water Pump

This robust water pump is designed for agricultural irrigation and drainage applications. It features a multi-groove pulley system for efficient power transfer and is engineered for high-volume water displacement and reliable performance in demanding environments.

Product Overview

Agricultural Irrigation Pump

This robust water pump is engineered specifically for high-volume agricultural irrigation and drainage applications. Featuring a durable cast iron housing, it is designed for longevity and reliable operation in demanding field environments. The unit includes a multi-groove pulley system for highly efficient power transfer and versatile plumbing configurations.

Technical Specifications

Housing Material	Cast Iron
Drive System	Multi-groove pulley
Suitable Applications	Agricultural Irrigation, Water Drainage
Plumbing Ports	Yes
Protection	Protective caps included
