

Agricultural Irrigation Water Pump with Multi-Groove Pulley

This robust agricultural irrigation water pump is designed for efficient water transfer and irrigation applications. Featuring a durable cast iron construction and a multi-groove pulley system, it is engineered for reliable performance in demanding environments.

Product Overview

High-Performance Agricultural Irrigation Pump

This robust agricultural irrigation water pump is engineered for efficient water transfer in demanding environments. Constructed with durable cast iron, it features a reliable multi-groove pulley system for consistent power transmission. The unit includes flanged inlet and outlet ports for secure, leak-free piping connections, and its self-priming design ensures quick and hassle-free operation.

Technical Specifications

Construction Material	Cast Iron
Drive System	Multi-Groove Pulley
Port Connection	Flanged Inlet and Outlet
Priming Mechanism	Self-Priming

Applications

Suitable Applications	Agricultural Irrigation, Industrial Water Transfer, Construction Dewatering
