

# Agricultural Leaf and Debris Rake

This agricultural rake is designed for gathering leaves, hay, and other debris. It features high-strength steel tines and an ergonomic handle for comfortable use.

## Product Overview

### Professional Grade Agricultural Rake

This durable and efficient agricultural rake is engineered for gathering leaves, hay, and various types of debris. Constructed with high-strength steel tines, it ensures optimal performance and long-term reliability in demanding environments. Designed with an ergonomic handle, this tool minimizes operator fatigue during extended use, making it an ideal solution for maintaining gardens, lawns, and large fields.

## Technical Specifications

Material	High-strength steel
Handle Design	Ergonomic design for reduced fatigue

## Application

Suitable For	Professional Use • Home Use
Primary Applications	Leaf Collection, Hay Gathering, Debris Removal, Lawn Maintenance, Field Maintenance
