Product Overview

Multifunctional Power Tiller

This 7.5 HP agricultural power tiller is a robust, multifunctional solution designed for diverse farm work. Featuring an all-gear transmission system for efficient power utilization and high torque, it is engineered to handle demanding agricultural environments. With versatile attachment capabilities and adjustable rotary tillage settings, it provides precise soil management for small to medium-sized farms.

Technical Specifications

Engine Power	7.5 HP
Transmission	All-gear transmission
Gearbox Features	High torque output, Efficient power utilization, Reasonable speed ratio

Operational Capabilities

Compatible Attachments

- Cultivator
- Plow
- Trenching blades
- Hilling blades
- Bed maker
- Seeder
- Fertilizer drill
- Film mulching machine
- Ridger
- Reaper

Tillage Modes	Rotary tillage with two shifting gears and inverse rotation capability
---------------	--
