

Agricultural Shovel Head

This shovel head is designed for agricultural hand tools. Constructed from durable metal, it provides excellent strength for digging, lifting, and moving tasks in farming, gardening, and landscaping.

Overview

Professional Grade Shovel Head

This high-quality shovel head is engineered for demanding agricultural, gardening, and landscaping tasks. Constructed from durable, heavy-duty metal, it is designed to provide excellent strength, longevity, and reliable performance. Its robust build ensures efficient soil penetration and durability during intensive digging, lifting, and moving operations.

Technical Details

Core Functions

- Digging
- Lifting
- Moving soil and debris

Material	Durable Metal
Primary Applications	Agriculture, Gardening, Landscaping
