

Agricultural Soil Tiller

The tiller is a versatile agricultural machine designed for soil preparation and cultivation. It features adjustable handlebars for comfortable operation and durable tines for effective soil turning.

Overview

Professional Agricultural Soil Tiller

This versatile agricultural soil tiller is designed for efficient soil preparation and cultivation in small to medium-sized gardens and fields. Powered by a reliable 7hp gasoline engine, it features a durable aluminum gearbox and a 2-forward/1-reverse speed transmission for flexible operation. With its 24-blade configuration and convenient front-wheel design, this machine is engineered to simplify heavy-duty tilling tasks while saving time and effort.
