

Agricultural Water Pump

This water pump is constructed from cast iron and designed for use in agricultural drainage and irrigation machinery. It features a multi-groove pulley system for belt-driven operation.

Product Overview

Professional Agricultural Water Pump

This high-durability cast iron water pump is engineered for demanding agricultural environments, specifically for drainage and irrigation machinery. It features a robust multi-groove pulley design for reliable belt-driven operation. With protected inlet and outlet ports, it is a versatile solution for various water management applications in professional farming settings.

Technical Specifications

Material Construction	Cast Iron
Drive Mechanism	Belt-driven multi-groove pulley
Application Scope	Agricultural Drainage, Irrigation Machinery
Port Protection	Yes
