

Agricultural Water Pump for Irrigation

This water pump is designed for agricultural drainage and irrigation tasks. It features a durable construction, ensuring dependable performance and a long lifespan.

Product Overview

Agricultural Drainage and Irrigation Solutions

This heavy-duty water pump is engineered specifically for demanding agricultural applications, including efficient irrigation and drainage. Its robust construction ensures reliable, consistent performance even under continuous operational requirements. Featuring a pulley-based belt-driven design, it offers versatile integration for various agricultural pumping setups.

Technical Specifications

Construction

Heavy-duty • High Durability

Drive Mechanism

Belt-driven via pulley

Primary Applications

Agricultural Irrigation, Field Drainage, Agricultural Water Transfer
